

J-Stake 30t

SUPER STRENGTH solid TH72M alloy – 84,000 psi ultimate strength

HIGH HOLDING • BEND RESISTANT • RUST FREE • ULTRA LIGHTWEIGHT: 60 grams each

These 300 mm long ‘30t’ J-Stakes are ideal for sandy ground or wherever a larger stake is needed.

The supplied US made split rings are high quality and strong – requiring some effort to install.

If you require split rings attached to your tent pegs, your friendly fishing tackle supplier might lend you a pair of split ring pliers to save breaking fingernails.
